

Kindergarten in Diani e.V.

KiD

A proper pre-school education on a full stomach will give the children of Diani (Kenya) vitality, helping them to make a good start and to get a fair chance of a life without poverty.

Where else? If not here...
When? If not now...
Who else? If not you and I...

**On behalf of the children
we thank you very much.**

KiD - Kindergarten in Diani e.V.

This Kindergarten (nursery) is located in Diani, 40 kilometres south of Mombasa, East Africa. In March 2003, it was founded by a couple from Bremen/Germany, Heike and Heinz Isbrecht, who had been travelling this area since 1993. Noticing the local conditions, the benefit of the children there gradually became a matter of utmost concern to them.

Since 2003, 54 children between three and six from the area at a time are provided with meals and medical care as well as taken care of by a nursery-school teacher. Having reached school age, they leave and are replaced by new children. However, school children are provided with fares, school uniforms and teaching material until they have finished school.

At the moment KiD is supporting 125 children, 51 at the kindergarden and 74 school children.

Now that a new brick building for the kindergarden has been erected on our own lot of land, we can tackle the interior, an extra house for the kitchen and a water tower. The growing number of children also requires the purchase of a school bus.

Since 2007, food prices in Kenya have risen by 300 %. We therefore plan to make KiD more self-sufficient and independent by purchasing additional property for the purpose of growing our own fruits and vegetables.

It is our objective to accompany, to sponsor and to support the children until they leave school. And one day, the project should be able to stand on its own feet.
